

BACTERIA HAVE NOWHERE TO HIDE!

The mechanical basin mixer that doesn't compromise on hygiene

Hygiene and infection control

Anti-scalding safety

Thermal shock feature

DELABIE Ref: 2921TEP

Discover the 2921TEP mechanical mixer, your new ally for impeccable hygiene and optimal anti-scalding safety, even in the most demanding healthcare environments!

Designed to meet strict hygiene, safety and ergonomic standards, this pressure-balancing mixer is ideal for sensitive establishments such as care homes, hospitals and clinics.

A habit that's not optional

With the 2921TEP basin mixer, maintaining impeccable hygiene becomes child's play! Its ingenious design, including a body with very low water volume and a spout featuring a tube with a smooth interior that has no niches where bacteria can develop, all prevent bacteria from taking hold.

Moreover, the speed with which the water flows through the tube considerably reduces bacterial development. In effect, this mixer guarantees a clean and safe environment for all users.

A heat shield!

The 2921TEP mechanical mixer takes your safety seriously, but with a touch of simplicity!

With this mixer there are no more accidental burns and scalds!

This basin mixer gives you peace of mind, guaranteeing that you will not scald your hands, thanks to its maximum temperature limiter. Moreover, with SECURITHERM technology, the hot water shuts off automatically if the cold water supply fails, avoiding any risk of scalding. As a bonus, thermal shocks can be activated without removing the control lever or shutting off the cold water supply. With the 2921TEP, patient safety is ensured.

A mixer tap for comfort

The 2921TEP mechanical mixer tap has been designed to offer you a simple and comfortable user experience. Thanks to its ergonomic design and its solid control lever, every movement becomes intuitive. Equipped with a spout specially designed to accommodate a BIOFIL point-of-use filter, it guarantees wholesome water every time it is used.

The 2921TEP washbasin mixer is designed to be accessible to everyone, including people with reduced mobility (PRM). This mixer maintains a constant temperature regardless of pressure and flow rate variations in the system, ensuring complete peace of mind. Enjoy unparalleled comfort and ease of use every day!

PRODUCT BRIEF / THE NO-COMPROMISE MECHANICAL BASIN MIXER

The 2921TEP mechanical mixer is no ordinary mixer. Imagine a product which combines hygiene, safety and user comfort. Well, that's exactly what this mixer offers! It doesn't just meet the challenges of healthcare facilities and the needs of patients, it completely redefines them: with its spout equipped with a narrow tube, its pressure-balancing technology and its thermal shock feature - with no need to remove the control lever. The 2921TEP mixer is a real revolution in the field of sanitary equipment. 30-year warranty.
