

ECOVADIS 2024: DELABIE AWARDED THE GOLD MEDAL!

For its fourth participation, DELABIE has been awarded the EcoVadis gold medal for the first time, in recognition of its performance and commitment to CSR (Corporate Social Responsibility).

This gold medal was achieved thanks to an impressive 13-point increase in one year (from 61/100 to 74/100).

This achievement places DELABIE in the top 5% of companies assessed worldwide.

Within its industry, **the company ranks in the top 1% (out of 5,062 companies).**

In recent years, DELABIE has made social and environmental policies a top priority, with **a concrete approach.**

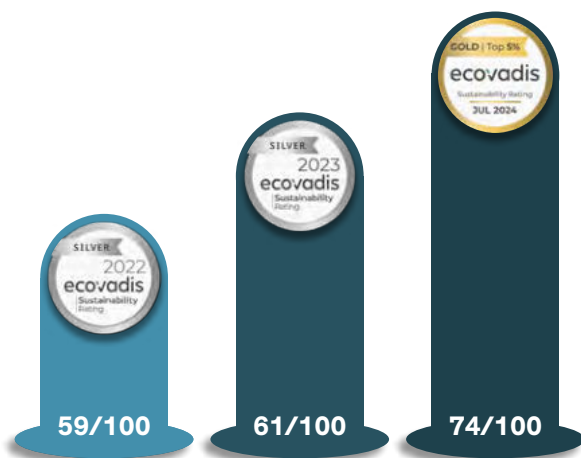

For example, in January 2024, DELABIE extended its product warranty from 10 to **30 years** and ensures the availability of spare parts for **50 years**—an investment in the future.

Already highly water-efficient, DELABIE's solutions help prevent the overconsumption of raw materials and energy.

By joining the United Nations Global Compact, the company is also committing to a world that respects both nature and people.

Since its founding, responsible social and environmental practices have been a matter of common sense at DELABIE.

The introduction of reporting tools and measurable targets formalises a policy that has been in place since 1928.
