

2024 ICONIC AWARDS: BE-LINE® LIFT-UP SHOWER SEAT IS A WINNER

LIFE IS SWEET, TAKE A SEAT!

DELABIE's lift-up shower seat with leg (DELABIE reference 511930BK) has won the «SELECTION» award at the 2024 ICONIC Awards Interior Design.

The award

The ICONIC AWARDS recognise the best innovations in the furniture and interior design industry. The design of a room must be considered in its entirety: washroom fittings are no longer regarded as stand-alone items, but as integral decorative elements in their own right.

This international competition creates a unique platform, connecting product designers with architects.

The product

The Be-Line® range combines aesthetics and comfort. With its sleek lines, this shower seat naturally blends into its surroundings, eliminating the clinical and sometimes stigmatising appearance of accessible bathrooms.

The Be-Line® seat embraces the concept of universal design, adapting to all users regardless of age or level of independence. Its generous width and depth provide valuable support or simply extra comfort for the user. Foldable and removable, it is perfect for shared shower spaces. A shower shelf can be installed as an alternative, allowing facilities to reduce the number of fixed seats, offering installation only when necessary.

As with all DELABIE's Accessibility products, the Be-Line® lift-up shower seat benefits from the Safety pack: 30-year warranty, CE mark and tested to over 200kg. In public and commercial places, the user weight is unknown. The product installed must therefore be able to support any user.

Available in three finishes - metallised anthracite, matte white or matte black - the Be-Line® lift-up shower seat will complement any interior design setting.
