

THE TEMPOMIX 3 REACHES NEW HEIGHTS!

Time flow basin mixer with soft-touch operation for semi-recessed and countertop washbasins

Temperature control via the push-button

85% water savings

Designed for public places

Sleek, timeless design

Ref. DELABIE : 794120

The DELABIE group, specialist in sanitary ware for public places, has extended its TEMPOMIX 3 range. This product, already suitable for wall-mounting and for installation with recessed washbasins, can now be paired with semi-recessed and countertop washbasins.

Comfort

The TEMPOMIX 3 is a single control mixer, easy to operate, with simplified temperature control via the push-button. Soft-touch operation ensures suitability for all users (including children, the elderly and people with reduced mobility).

Water savings

Reducing water consumption and preventing water waste has always been an integral part of DELABIE's DNA. Thanks to the automatic shut-off function, time flow water controls allow split delivery of water during use. The TEMPOMIX 3 is no exception, providing up to 85% water savings when compared to standard mixers and taps.

These significant savings are achieved by the time-flow technology, with a duration of around 7 seconds, and by the pre-set flow rate of 3 litres per minute.

Specifically developed for public places

The two new TEMPOMIX 3 models (H. 170mm and H. 250mm) are both suited to intensive use in public places. The combination of a sturdy metal body with stream-lined design guarantees their robustness!

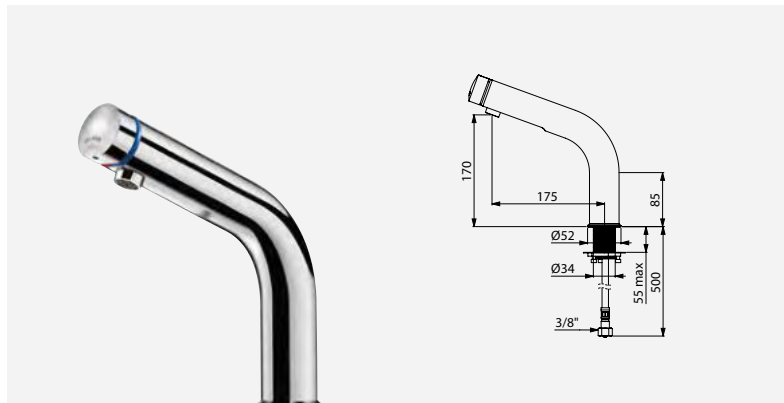

Design

The sleek lines and extended body of the new TEMPOMIX 3 models makes them the perfect partner for semi-recessed washbasins (H. 170mm), and countertop washbasins (H. 250mm). Ultimately, they provide an excellent solution that will enhance any top-of-the-range washroom!

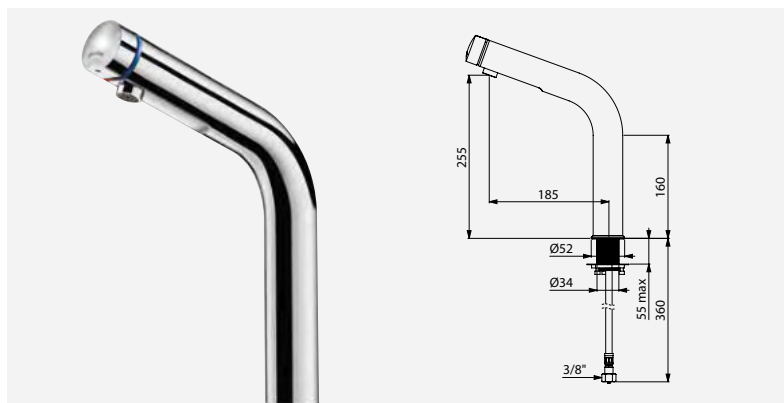

PRODUCT BRIEF / THE TEMPOMIX 3 REACHES NEW HEIGHTS

The DELABIE group, specialist in sanitary ware for public places, has extended its TEMPOMIX 3 range to suit all types of washbasin installations – whether recessed, semi-recessed or countertop. The product provides user comfort, timeless design and up to 85% water savings, making it the perfect choice for all premium washrooms designed for public use.
