Public washrooms have evolved into a showcase of hygiene and design for an entire establishment. To meet this growing demand, DELABIE, expert in sanitary ware for public and commercial places, offers a seamless combination of BINOPTIC electronic taps and soap dispensers.

A perfect pair

With sleek, timeless lines and finishes in chrome, satin, or black, this duo boasts a modern and universal design—perfect for elevating the most prestigious public washrooms. The range is available in both deck-mounted and wall-mounted versions.

Uncompromising hygiene

This 100% touch-free combo ensures total hygiene, eliminating any risk of germ transmission via hand contact. The BINOPTIC tap or mixer and soap dispenser activate and stop automatically without any manual interaction.

The BINOPTIC 2 is also equipped with an intelligent periodic duty flush, which runs every 24 hours after the last use. Additionally, an anti-stagnation solenoid valve refreshes the water with each activation, preventing stagnation inside the tap or mixer.

This ensures both users and water networks are fully protected.

Not a single wasted drop

The BINOPTIC 2 delivers up to 90% water savings compared to conventional taps. The matching soap dispenser is a no-waste, high-efficiency solution, thanks to its drip-free dosing pump, which dispenses just the right amount of soap for effective handwashing.

Easy as one, two, three

BINOPTIC 2 taps and mixers are simple and quick to install, with no special work required. A traditional tap can be replaced in mere minutes, with battery-powered models requiring no electrical connection.

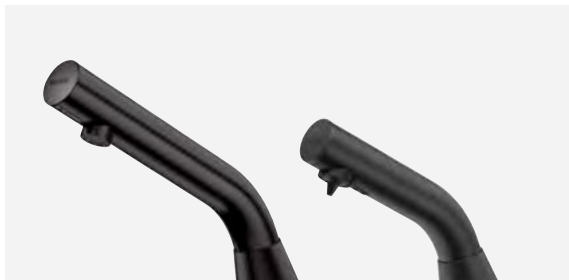

Maintenance is also hassle-free: all components are accessible from the front, with no need to remove the tap or shut off the water supply.

The BINOPTIC automatic soap dispenser is compatible with both liquid and foam soaps. The deck-mounted model makes refilling effortless, thanks to its intuitive clip-on removable tank. Additionally, models with tank can even accommodate hand sanitiser gel!

PRODUCT BRIEF / THE PERFECT COMBO FOR COMPLETE HYGIENE

The BINOPTIC tap or mixer and soap dispenser combination is a simple, stylish, hygienic, and cost-effective solution for upgrading public washrooms. BINOPTIC 2 water controls deliver 90% water savings and instant installation, while the BINOPTIC soap dispenser ensures the perfect soap dosage for effective handwashing and is compatible with liquid, foam, and sanitiser gel (for models with tank). 30-year warranty.
